
CONTENTS

| | |
|---|-----|
| ECOLOGY OF WATER RESOURCES | 7 |
| Bondar O., Kuryliuk O., Fylypchuk V. New “green” water purification technologies: combined filtration systems using higher aquatic plants with deep electrochemical purification and oxidation with chlorine dioxide | 7 |
| Ivus T., Karpenko Yu. Floristic and phytocenotic structure of aquatic and coastal-aquatic ecosystems of small rivers lower town of Desna within the borders of Chernihiv Polissia..... | 15 |
| Polishchuk M., Rolik O. Modeling the process of water sampling for ecological monitoring of water bodies..... | 19 |
| Shakhman I., Bystriantseva A., Chvartkovska A. Contemporary Dynamics of Water Quality Indicators of the Dnipro River within the Cherkasky Region..... | 26 |
| ECOLOGY AND PRODUCTION | 31 |
| Herasymchuk L., Kyrylenko N., Valerko R., Patseva I. Environmental risks and their assessment in the context of sustainable development of mining enterprises..... | 31 |
| Grygorieva L., Grygoriev K. Effective dose of ionizing radiation from ¹³¹ I releases from NPPs..... | 37 |
| Kozhemiakin G. Design parameters of nozzles with impact jets for wet gas purification..... | 41 |
| Khalmuradov B., Pron O. Features of creating a mathematical model for the optimal selection of electric generators taking into account the environmental component..... | 44 |
| Yakymenko I., Bubliencko N., Salavor O., Nychyk O., Shapovalov Ye., Henshel D. Energy security and renewable energy potential of the EU and Ukraine in terms of the Russia’s aggression..... | 51 |
| ECOLOGY OF LAND RESOURCES | 56 |
| Herasymchuk O., Shevchuk L., Vasilieva L., Kagukina A. Modern approaches to the management and restoration of degraded lands through innovative land management tools..... | 56 |
| Sopova N.V. Land use structure in Cherkasy region: formation, current state, dynamics..... | 61 |
| ECOLOGY AND CROP PRODUCTION | 67 |
| Pykalo S., Yurchenko T., Kharchenko M., Voloshchuk H., Pirykh A. Method for sterilization of immature wheat and triticale kernels for <i>in vitro</i> culture followed by selection for stress tolerance..... | 67 |
| ENVIRONMENTAL IMPLICATION OF MILITARY ACTIONS | 71 |
| Khrutba V., Kobzista O., Lysak R., Khrutba Yu., Boryatynskyi M., Belmega I. Ukraine Recovery Plan as a tool of ecological transformation of post-war reconstruction..... | 71 |
| ENVIRONMENTAL MONITORING | 77 |
| Lomakina O., Teliura N. Analysis of state and public air monitoring systems the city of Kharkiv and Kharkiv region..... | 77 |
| Shumik M., Popil N., Boyko R. Methodological and practical aspects of monitoring the vital state of plants in urbanized ecosystems..... | 83 |
| GENERAL ENVIRONMENTAL SAFETY ISSUES | 88 |
| Olinechenko Yu. Energy efficiency of healthcare institutions as a factor for changing the carbon footprint..... | 88 |
| PRESERVATION OF BIOLOGICAL AND LANDSCAPE DIVERSITY | 93 |
| Barabash O., Tarasuik M. Environmental protection technologies for biodiversity management of forest ecosystems of the Syniohora National Nature Park..... | 93 |
| Bihun M. Landscape and geomorphological changes in the Carpathians under the influence of extreme weather conditions: spatial analysis of landslide activation (2010–2023)..... | 98 |
| Biletskyi O., Zaluskyi D. Energy processes in load when operating from a combined power source with a supercapacitor and a battery..... | 104 |

| | |
|--|-----|
| Voronova N., Gorban V., Lytvynenko A., Vysochin D. YOLO-Based Automatic Deer Antler Identification for Population Assessment..... | 109 |
| Ivanenko M., Prytula N. Biodiversity of the flora of the Great Meadow prior to the construction of the Kakhovka hydroelectric station..... | 116 |
| Kononenko R., Patsyuk M. Medicinal plants (Rosaceae, Asteraceae, Fabaceae, Apiaceae) in the vicinity of Zhytomyr city.... | 120 |
| Melnyk-Shamrai V., Shamrai V., Krasnov V., Mozharivska I., Ivaniuk R., Veselskyi O. Environmental safety of forest ecosystems in the minds of investigation..... | 124 |
| Podzerei R. Modern technologies for the protection of agricultural landscapes in Cherkasy region..... | 133 |
| Rudenko S., Rudenko V. Potential of forest-steppe ecosystems in the biome of the east-european plain within Ukraine.... | 138 |
| Soloshenko V. Ecological features of species of the genus <i>Ribes L.</i> in the right-bank forest-steppe of Ukraine..... | 143 |
| Suslova O. Drought tolerance of woody plants in park plantations of industrial cities of the steppe zone of Ukraine..... | 147 |
| NATURE RESERVE FUND OF UKRAINE | 153 |
| Lialiuik-Viter H. Research on the network of natural reserve fund in Ivano-Frankivsk region..... | 153 |
| WASTE MANAGEMENT | 158 |
| Bondar O., Pohorielova O., Kotlyarenko L., Halahan O. Analysis of waste management status in Ternopil region: problems and prospects..... | 158 |
| Illiash O., Hanoshenko H. Analysis of Modern Practices in Municipal Waste Management: European Experience in Landfill Governance..... | 162 |
| Nonik L., Patseva I. Hazardous components of destruction waste as a challenge to environmental safety..... | 168 |
| Polushkin T., Safranov T. Possibilities of Using Certain Types of Plastic Waste in the Regions of Ukraine..... | 173 |
| Khandogina O., Drozd O., Zavrzhnyi A., Khoroshylov A., Stalinska I. Assessment of residual risks of reclaimed landfill sites for household waste under the influence of climate change..... | 178 |
| CLIMATE CHANGE | 187 |
| Hurelya I., Vasylenko O. Assessment of climate change impacts on vulnerability of urban water users..... | 187 |
| Karpenko Yu., Aravin P., Sverdlov V., Pototska S. Implementation of the basic principles of the greening concept of the city of Chernigiv in the conditions of climate change | 192 |
| AUTHORS' CREDENTIALS | 199 |
