
CONTENTS

ENVIRONMENTAL SAFETY	9
Bondar O., Chetverykov V., Ryzhenko N., Liubimov A. Environmental Pollution by Persistent Organic Pollutants as a Result of Military Activities.....	9
Hetman B., Voloshyna N. Comparative analysis of standards and procedures for conformity assessment of equipment for potentially explosive dust environments in Ukraine and EU.....	15
Mukha R., Gniezdilova V. Ecological dysfunction of the digital ecosystem under the development of artificial intelligence: an ecosystem approach to the analysis of information overload.....	20
ENVIRONMENTAL SAFETY OF BIODIVERSITY	26
Nekos A., Dobrovolskyi O. Nature reserve fund of Ukraine in the context of environmental safety, biodiversity conservation and post-war recovery.....	26
Parakhnenko V., Goncharuk V., Mandebura S. Environmental toxicology as a methodological foundation for assessing the impact of bio-organic farming on the environmental safety of agroecosystems and reducing anthropogenic environmental impact.....	32
ECOLOGY OF ATMOSPHERIC AIR	38
Hrabko N., Kolisnyk A. Low mass concentration of oxygen in atmospheric air as a risk for human health in the regions of Western Ukraine.....	38
ECOLOGY OF LAND RESOURCES	46
Berezhniak Ye., Bogdanets V., Brovko D. Detection of disturbances of the soil cover and soil erosion development of the Velyka Pysarivka territorial community of Sumy region as a result of military actions.....	46
Rudenko S., Rudenko V. Land resources as dominant and subdominant components of nature-resource potential of ecosystems of Ukraine.....	57
ECOLOGY OF WATER RESOURCES	63
Bobkov M., Pitsil A. Monitoring of Drinking Water Quality Indicators in the Centralized Water Supply System of Zhytomyr for 2020–2025.....	63
Zalizniak Ya. Geosystem-Based Approach to River Ecosystem Conservation: Technologies for Identifying and Minimizing Anthropogenic Impacts.....	70
Novikova A. The Role of Groundwater in Ensuring Sustainable Water Use in the Kharkiv Region under Conditions of Water Resource Scarcity.....	76
Olinechenko Yu., Bilyk T., Yavniuk A. Reducing the water footprint and water body eutrophication during a medical facility's transition to solar energy.....	83
ECOLOGY OF NATURAL RESOURCES	89
Kalyn B. Anthropogenic transformation and regulatory-cadastral collisions of water protection zones in Ukraine (case study of Lviv region).....	89
Kratiuk O., Vlasiuk V., Bondarchuk N. Development of the Network of Semi-Free-Ranging Game Animal Enclosures within the Organizational Structure of Hunting Management in Zhytomyr Region.....	94
ECOSYSTEM ECOLOGY	101
Voloshyn V. Feedback as a Factor in the Relationship between Individualism and Collectivism in Population Ecosystems.....	101
Hulai V. Peculiarity of ecological interactions among representatives of Bryophyta and pathogenic leptospire in the conditions of wetlands territories.....	110
Simchuk A., Sirenko A. Sphecidae and Crabronidae (Apoidea, Hymenoptera, Insecta) of the subalpine belt of the Ukrainian Carpathians.....	115

Tkachuk O., Mazur O. Scientific principles of selection of ornamental plants in urban ecosystems to provide natural protection functions.....	120
Khyzhniak S., Korniienko V., Voitsitskyi V., Koversun I., Dudchenko N. Plants as a factor in the reliability of terrestrial ecosystems and their importance for bioindication and biotesting of environmental pollution.....	126
ECOLOGY OF EMERALD NETWORK SITES.....	131
Fedoniuk V., Pankevich S. Aspects of the current status and environmental safety of the Emerald Network areas in the Pripyat and Stokhod river basin.....	131
AGROECOLOGY.....	136
Loza V., Nazarenko M. The effect of phenyl-substituted derivatives on the photosynthetic apparatus of wheat agrocenoses.....	136
Yurchenko T., Pykalo S., Hudzenko V., Kuzmenko Ye., Pirykh A. Method for assessing frost tolerance of cereal crops at different stages of plant organogenesis.....	141
ECOLOGY OF URBAN ECOSYSTEMS	147
Vladymyrova O., Timoshchuk M., Garabagii T., Burhaz O. Statistical patterns of the spatial distribution of NO ₂ in an urban environment (using the city of Odesa as an example).....	147
Sakun A., Kutkovyi D. Military actions as a factor of urban ecosystem degradation.....	152
ENVIRONMENTAL MANAGEMENT.....	157
Vozniuk Ya. Eco-technological maturity of transport enterprises as a new scientific category of environmental management.....	157
ECOLOGICAL MODELING.....	162
Dmytruk D. Modelling the relationship between soil contamination and ¹³⁷ Cs accumulation in wild mushrooms on the territory of Polissia.....	162
Tkach V., Morozova T., Isabel O’Neill Gaivão, José Inácio Ferrão da Paiva Martins. Mathematical modeling of the electrochemical determination of fipronil using a composite sensor based on triazolic Schiff bases and vanadium(III) oxyhydroxide.....	167
THEORETICAL ECOLOGY.....	174
Dubrovsky V., Mudrak O. Application of geoinformation technologies for spatial verification of key areas of the designed econetwork of Kirovograd region.....	174
Ivashchenko I., Rakhmetov D. Biochemical composition of phytoraw materials of annual and perennial introduced plants of the Asteraceae family in the conditions of Polissya, Ukraine.....	183
Maslov I., Vnukova N., Maslova N. Theoretical foundations for assessing environmental ecology based on acoustic load indicators.....	192
Tereshchenko N. Educational case as an instrument for developing sustainable development competences.....	198
Shevchenko R. Scientific and practical foundations of ecological-educational work in tourist and recreational destinations and green infrastructure (based on selected of Nature Protected Areas of the city of Kyiv).....	205
MONITORING OF FOREST ECOSYSTEMS	210
Bondarchuk Yu., Melnyk-Shamrai V. Modern methods of monitoring forest ecosystems in Ukraine: current state, challenges and development prospects.....	210
MONITORING ENVIRONMENTAL IMPACTS OF MILITARY ACTIONS.....	219
Butenko O., Vasiutynska K., Melnyk S., Ozerniuk H., Kubko V., Byzova M., Danylenko T. Wartime ecocide in Ukraine: national approaches and international experience in the legal, environmental, and economic assessment of environmental damage.....	219

CLIMATE CHANGE	227
Buialska N., Kostenko I., Orda B., Tsybulia S., Cheliabieva V. Strategy for adaptation of the food industry of Ukraine to climate change.....	227
Kovalenko Yu., Dmytrenko T. Assessing the impact of climate change on the sum of active temperatures before the date of the last spring frost in Ukrainian cities.....	233
Shevchenko O., Kovalchuk I., Openko I., Pron O., Tykhenko R. The impact of climate change on the geoecological state and functioning of river systems and lakes of the Polissia region.....	243
WASTE MANAGEMENT	251
Filin V., Ulytskyi O., Frolov V. Methodological framework for the implementation and scaling of the digital E-Waste platform in Ukraine's waste management system in the context of European integration.....	251
AUTHORS' CREDENTIALS	259
