CONTENTS

URBAN ENVIRONMENTAL SAFETY 9

Ryhas T., Bondar O., Polishchuk D., Shmandii V. Environmental assessment of acoustic load and justification of noise protection measures in the urban environment 9

Zarochentseva O., Tymchuk K. Phenological Variability of *Prunus serrulata* Lindl. as an Indicator of Green Infrastructure Condition in Urban Areas (A Case Study of Chernivtsi, Ukraine) 18

Suslova O., Boyko L. Transformation of the taxonomic structure of the park dendrocoenoses in the industrial city of the Northern Steppe of Ukraine 26

ENVIRONMENTAL SAFETY 36

Vashchuk V., Pysarevska S., Yaremko Z., Tymoshuk S., Kit L. Social activity of youth in issues of environmental safety in the conditions of military actions 36

Vradii O. Transformation of non-wood forest product quality under the influence of security challenges in conditions of technogenic and military impacts 42

Dryhulych S., Orfanova M., Dryhulych P. Challenging aspects of greenhouse gas emissions reporting and verification 50

Kovhan Ya., Herasymenko M. Spatiotemporal Differentiation Of Bird Collision Risk With Wind Turbines Using Collision Risk Modeling 57

Lytvyn B., Smirnov O., Taran N. Phytorevitalisation as part of an ecocentric approach to the restoration of contaminated areas 62

Mykhailiuk Yu., Davydchuk D. Assessment of environmental effectiveness of a technical solution for reducing carbon monoxide emissions in exhaust gases 71

Sokolov A. Comprehensive assessment of the effectiveness of remediation of petroleum-contaminated soils following an accidental oil spill 75

Yakovyshyna T., Moskalov M. Ecological risk assessment of lead pollution of highway areas soils with various functional purposes 83

ENVIRONMENTAL MONITORING 90

Lunova O.V. Environmental monitoring and strategies for minimizing the impact of transport infrastructure on the environment 90

Taranenko A., Cherevko I., Saprykin V., Trus I. Detection of hidden leaks based on groundwater monitoring results at the Kyiv-Pechersk Lavra 97

ENVIRONMENTAL MONITORING OF WARFARE IMPACTS 106

Artemenko N., Prysiazhnyi V., Morozova T. Spatio-Temporal Geospatial Assessment of the Environmental Impacts of Warfare in Pokrovsk, Myrnohrad, and Chasiv Yar Using Earth Remote Sensing Data 106

ECOLOGY OF ATMOSPHERIC AIR 115

Grygoriev K., Aleksieieva A., Grygorieva L. Smart system for environmental and radiation monitoring of atmospheric air 115

Chugai A., Chernyakova O., Sazanska M. The state of the air basin in the central regions of Ukraine as an indicator of sustainable development 122

INDUSTRIAL ECOLOGY 127

Kasyanenko D. Hydrogeoecological justification of the depth of open-cast mining at the Hulyaypil iron-bearing quartzite deposit, taking into account the depression cone and drainage patterns 127

ECOLOGY OF WATER RESOURCES 136

Hryhoriichuk V., Pasichnyk M. Transboundary Aspects of the Environmental Safety of Water Supply from Infiltration Intakes in the Prut and Siret River Basin 136

ISSN: 2306-9716 (Print), ISSN: 2664-6110 (Online)

Drozd O., Diadin D. Comparison of scenarios for reducing pressures on the Khadzhyder and Alkaliia Rivers using multi-criteria decision analysis……142

Diachenko N.O. Transformation of groundwater hydrodynamic and hydrogeochemical regimes under the influence of long-term coal mine operation in the Western Donbas……151

ECOSYSTEM ECOLOGY……161

Hlushak D., Gniezdilova V., Riznychuk N. Vegetation of landslide ecotopes in "Synogora" National Nature Park (Gorgany mountains)……161

Hnativ I. Processes of mechanical denudation in the slope areas of the Ukrainian Carpathians within the Dniester basin……169

Rudenko S., Rudenko V., Rudenko S., Pakhomov O. The Role of Faunistic Resources in the Ecosystems of Ukraine……174

ECOLOGY OF LAND RESOURCES……180

Vovk M. Degradation of the Biotic Potential of Urboedaphotopes in Central Ukraine Under Chronic Anthropogenic Pressure……180

Hurskiy I., Imamov V. Monitoring the Ecological State of Urban Soils under the Impact of Stormwater Runoff……185

Kucherenko V. Assessment of Technogenic Pollution of Agroecosystems by Heavy Metals……191

Panas N. Bioindication potential of soil microorganisms in the system for assessing soil contamination in technogenically transformed territories……197

Sopova N., Sopov D. Urban land use and its impact on the landscapes of the Cherkasy region……204

Shevchenko N., Ponikarchyk S. Bioconversion of Cattle Manure by Integrated Aerobic Composting and Vermicomposting……210

ECOLOGY OF IRRIGATION SYSTEMS……216

Blazhko A. Ecological and reclamation monitoring of the quality of drainage and discharge waters from the Lower Dniester irrigation system for drip irrigation based on agronomic criteria……216

ECOLOGY OF FOREST ECOSYSTEMS……222

Vyshnevskyi A., Pitsil A., Hryshchenko D., Komorna O. Ecological resilience of forest ecosystems in Zhytomyr Polissya under contemporary climate change: a case study of the State Enterprise «Olevsk Forestry APC»……222

Lavrinenko V. Monitoring-based assessment of floristic diversity in the forest fund of the north-eastern part of Zhytomyr region……230

Nonik L., Patseva I., Pavlenko O. Adaptation of Ukraine's forest ecosystems to climate change under the increasing risk of wildfire occurrence and spread……236

Fitsailo T., Tymchenko I. Bioproductivity and carbon sequestration by pine stands of Kyiv region……243

Yakovenko O., Asmakovskyi Ye. Dynamics of forest area recovery in the Polissia part of Chernihiv region based on NDVI index values (2016–2025)……248

WASTEWATER ECOLOGY……259

Sebko V., Bosiuk A., Makhonina O., Nus I. Application of the frequency stabilisation method of electromagnetic interaction for environmental monitoring of wastewater from vegetable canning……259

Stepova O., Frolov V. Analysis of current trends in the waste management system for wastewater treatment in the Poltava region……267

Telyma S., Diatel O. About the process forming of the biofilm at the wastewater treatment in bioreactors with fixed biocenosis……273

GENERAL ISSUES OF ENVIRONMENTAL SAFETY……280

Zabarnyi O., Bronnikova L. The state of agricultural landscapes under martial law and prospects for their restoration in the post-war period……280

Parakhnenko V., Mandebura S. Environmental toxicology as a methodological framework for assessing the impact of bio-organic farming on the ecological safety of agroecosystems and reducing anthropogenic pressure on the environment……287

CONSERVATION OF BIOLOGICAL AND LANDSCAPE DIVERSITY……293

Holovko O., Leliukh R., Kalchuk G. Population status of Orchidaceae plant species in the territory of the National Nature Park «Dermansko-Ostrozhskyi»……293
